

CELPIP Writing Practice Test 11

A free full-length CELPIP-General Writing practice test from CELPass.com: all 2 tasks in the real test order with the real timings, and an excellent sample answer for every task at the end.

Task	Topic	Timing
Task 1: Writing an Email	Reporting a Neighbour's Missing Cat	Time: 27 minutes Length: 150–200 words
Task 2: Responding to Survey Questions	Public Park Renovation Survey	Time: 26 minutes Length: 150–200 words

How to take this test

1. Do both tasks in one sitting: 27 minutes for Task 1, then 26 minutes for Task 2.
2. Type your answers in a plain text editor with spell check turned off, as in the real test, and aim for 150–200 words.
3. Compare with the sample answers at the end: did you cover every point, organise paragraphs and use a suitable tone?

Get your answers scored for free. On celpass.com you can take a CELPIP Writing test on the computer, as in the real exam, and get an AI score on the four CELPIP rating dimensions with every mistake marked. More free tests: celpass.com/celpip/practice-tests-pdf

Task 1: Writing an Email

Time: 27 minutes · Length: 150–200 words

Reporting a Neighbour's Missing Cat

Your elderly neighbour in Hamilton, who does not use a computer, lost her cat five days ago. You offered to report it through the city's lost pet service, but the online form and the phone line were both difficult to use, and you have not received any reply.

Write an email to the city's animal services department in about 150-200 words. Your email should do the following things:

Explain your neighbour's situation.

Describe the problems you had with the lost pet service.

Suggest improvements to the service and ask for help finding the pet.

Your answer: _____ words

Task 2: Responding to Survey Questions

Time: 26 minutes · Length: 150–200 words

Public Park Renovation Survey

Your city is planning a major renovation of the local public park, and city officials are seeking input from residents on how best to improve the space. The park is currently used for various activities, including jogging, picnics, and outdoor games. However, some residents believe that the space could be better utilized with a dedicated children's play area, while others think it would be more beneficial to install outdoor exercise equipment for adults. Since funds are limited, the city will proceed with only one of these options.

Which option do you prefer? Why?

- Option A: Build a dedicated children's play area with swings, slides, and climbing structures.
- Option B: Install outdoor exercise equipment for adults to promote fitness and health.

Your answer: _____ words

Sample answers

One strong answer for each task. Use them for ideas, structure and vocabulary, not to memorise: examiners notice memorised answers.

Task 1: Reporting a Neighbour's Missing Cat

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

Dear Animal Services Team,

I am writing on behalf of my neighbour, Mrs. Dorothy Price, an 82-year-old widow on Aberdeen Avenue who does not use a computer. Five days ago, her indoor cat, Biscuit, slipped out when she opened the door for a delivery. He is a large orange cat with white paws, wears a blue collar and is microchipped. Biscuit is her only companion, and she has been heartbroken since he disappeared.

Unfortunately, reporting him has been surprisingly difficult. Your online form required me to create an account before I could start, and it then rejected every photo I tried to upload. When I called on Saturday, a recording explained that the line operates only on weekdays. I submitted the form on Monday but have not received any acknowledgement.

I would suggest allowing reports without an account, accepting phone photos, and sending an automatic confirmation, so residents know their report has arrived. In the meantime, I would be grateful if you could check your shelter records and microchip scans for Biscuit and contact me at 905-555-0193.

Thank you very much for your assistance.

Sincerely,

Carlos Mendes

Task 2: Public Park Renovation Survey

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

I strongly advocate for Option A, as investing in a dedicated children's play area would create long-term benefits for families and foster early childhood development.

Studies show that outdoor play is crucial for children's physical and social growth, improving motor skills and encouraging teamwork. A well-designed playground would provide a secure environment where children can engage in creative and active play, benefiting both their physical and mental health.

While fitness equipment for adults is valuable, existing jogging paths and green spaces already support adult exercise. In contrast, a dedicated children's play area addresses an unmet need in our community by providing a structured, safe, and engaging space for young residents.

Prioritizing family-friendly infrastructure ensures that the park remains a vital community asset, serving multiple generations and enhancing overall neighborhood well-being.
