Task 1: Feedback on New Library Services

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

Dear [Library Manager's Name],

I recently explored the newly introduced library services and wanted to commend your team on these improvements. The digital borrowing system and expanded study areas have significantly enhanced the user experience.

That said, I encountered some difficulties accessing e-books due to system slowdowns. Additionally, implementing an online waitlist for high-demand titles would improve accessibility for all members.

Thank you for your continued commitment to improving the library's offerings. I look forward to your response regarding these suggestions.

Sincerely,

[Your Full Name]

Task 2: Growing Together: Supporting Small Businesses Survey

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

Opinion: I strongly advocate for Option A, as tax incentives and grants provide small businesses with a powerful tool to drive economic growth and resilience.

Support: By easing financial pressures, these measures enable owners to expand operations—such as hiring staff or launching new products—or innovate, like adopting eco-friendly practices. Grants can kickstart ventures, turning ideas into reality for entrepreneurs short on capital. Evidence shows this approach boosts employment and local spending, creating a ripple effect that enhances the tax base. Unlike temporary events, it fosters sustainable prosperity.

Conclusion: Option A is a strategic investment in a diverse, thriving economy that benefits all residents long-term.
