

CELPIP Writing Practice Test 25

A free full-length CELPIP-General Writing practice test from CELPass.com: all 2 tasks in the real test order with the real timings, and an excellent sample answer for every task at the end.

Task	Topic	Timing
Task 1: Writing an Email	Request for Better Road Maintenance	Time: 27 minutes Length: 150–200 words
Task 2: Responding to Survey Questions	Transportation Improvement Survey	Time: 26 minutes Length: 150–200 words

How to take this test

1. Do both tasks in one sitting: 27 minutes for Task 1, then 26 minutes for Task 2.
2. Type your answers in a plain text editor with spell check turned off, as in the real test, and aim for 150–200 words.
3. Compare with the sample answers at the end: did you cover every point, organise paragraphs and use a suitable tone?

Get your answers scored for free. On celpass.com you can take a CELPIP Writing test on the computer, as in the real exam, and get an AI score on the four CELPIP rating dimensions with every mistake marked. More free tests: celpass.com/celpip/practice-tests-pdf

Task 1: Writing an Email

Time: 27 minutes · Length: 150–200 words

Request for Better Road Maintenance

You have noticed that roads in your neighborhood are in poor condition, making driving unsafe.

Write an email to the city council. Your email should include:

- A brief explanation of the road conditions.
- How the poor conditions are affecting residents.
- Suggestions for improving road maintenance.
- A request for immediate action.

Your answer: _____ words

Task 2: Responding to Survey Questions

Time: 26 minutes · Length: 150–200 words

Transportation Improvement Survey

Your city is planning to improve its public transportation system to make commuting easier. Some people believe that expanding bus and train routes is the best solution, allowing more areas to have access to public transit. Others argue that the focus should be on reducing fares, making public transportation more affordable for everyone. Due to budget constraints, the city can only prioritize one improvement.

Which option do you prefer? Why?

- Option A: Expand bus and train routes to reach more areas.
- Option B: Reduce public transportation fares to make commuting cheaper.

Your answer: _____ words

Sample answers

One strong answer for each task. Use them for ideas, structure and vocabulary, not to memorise: examiners notice memorised answers.

Task 1: Request for Better Road Maintenance

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

Dear [City Official's Name],

I am writing to formally address the alarming state of roads in [Neighborhood Name], where extensive potholes, cracked pavement, and uneven surfaces have rendered driving perilous. These conditions jeopardize the safety of residents and visitors alike.

The poor road quality has resulted in costly vehicle damage for many households and elevated the risk of accidents, particularly during adverse weather. To resolve this, I urge the city to prioritize comprehensive road repairs and adopt a proactive maintenance schedule to prevent recurrence. Please take swift action and provide an update on planned interventions.

Thank you for your dedication to improving our community. I eagerly await your response.

Sincerely,

[Your Full Name]

Task 2: Transportation Improvement Survey

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

I strongly advocate for Option A, as expanding public transit networks maximizes accessibility and long-term urban sustainability.

Limited transit routes force residents to rely on personal vehicles, contributing to traffic congestion and pollution. By extending bus and train services to underserved areas, the city can encourage greater use of public transportation, reducing overall carbon emissions.

Although fare reductions are beneficial, they do not address accessibility issues. A well-connected transit system ensures efficiency and equity, making it the most impactful investment for urban development.
