

CELPIP Writing Practice Test 27

A free full-length CELPIP-General Writing practice test from CELPass.com: all 2 tasks in the real test order with the real timings, and an excellent sample answer for every task at the end.

Task	Topic	Timing
Task 1: Writing an Email	Complaint About Billing Discrepancy	Time: 27 minutes Length: 150–200 words
Task 2: Responding to Survey Questions	Renewable Energy Implementation Survey	Time: 26 minutes Length: 150–200 words

How to take this test

1. Do both tasks in one sitting: 27 minutes for Task 1, then 26 minutes for Task 2.
2. Type your answers in a plain text editor with spell check turned off, as in the real test, and aim for 150–200 words.
3. Compare with the sample answers at the end: did you cover every point, organise paragraphs and use a suitable tone?

Get your answers scored for free. On celpass.com you can take a CELPIP Writing test on the computer, as in the real exam, and get an AI score on the four CELPIP rating dimensions with every mistake marked. More free tests: celpass.com/celpip/practice-tests-pdf

Task 1: Writing an Email

Time: 27 minutes · Length: 150–200 words

Complaint About Billing Discrepancy

You noticed an error in your recent bill from a service provider. Write an email explaining the issue and requesting a correction.

Email Requirements:

- Clearly describe the discrepancy in the bill.
- Provide any relevant account or billing details.
- Request that the error be corrected promptly.

Your answer: _____ words

Task 2: Responding to Survey Questions

Time: 26 minutes · Length: 150–200 words

Renewable Energy Implementation Survey

Your city is investing in renewable energy to reduce its carbon footprint. Some officials propose focusing on solar energy, installing solar panels on rooftops and public buildings. Others believe wind energy is the better option, suggesting the construction of wind turbines in strategic locations. Since both require large investments, the city must decide which one to prioritize.

Which option do you prefer? Why?

- Option A: Invest in solar energy projects.
- Option B: Develop wind energy infrastructure.

Your answer: _____ words

Sample answers

One strong answer for each task. Use them for ideas, structure and vocabulary, not to memorise: examiners notice memorised answers.

Task 1: Complaint About Billing Discrepancy

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

Dear [Billing Department/Representative's Name],

I am writing to address a discrepancy in my latest bill (Account No. [Your Account Number]), received on [date, if applicable]. The charged amount exceeds my expected charges based on my service agreement and prior statements, indicating a possible error in the billing process.

I respectfully request a detailed review of my account to identify and correct this mistake at your earliest convenience. Should you require further documentation, such as previous bills or payment records, please let me know, and I will provide them promptly.

Thank you for your swift attention to this issue. I look forward to your confirmation of the correction.

Best regards,

Basic and good answers for this task: celpass.com/celpip/writing/task-1-writing-an-email/samples/complaint-about-billing-discrepancy

Task 2: Renewable Energy Implementation Survey

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

I strongly advocate for Option A, as solar energy presents a more adaptable and cost-effective solution for urban renewable energy adoption.

Solar panels utilize existing structures, such as rooftops, minimizing land use and environmental disruption. Furthermore, advancements in solar battery storage ensure energy availability even on cloudy days, making it a highly reliable source of power.

While wind energy has its advantages, it requires extensive land use and depends on variable wind conditions. Investing in solar energy aligns with both environmental sustainability and urban efficiency, making it the superior choice for our city.
