Task 1: Writing an Email

Time: 27 minutes · Length: 150–200 words

Complaint About Late Delivery

You ordered a gift online, but it arrived several days late, missing an important occasion. Write an email to the online retailer's customer service to complain.

Required Points:

- Mention what you ordered and when it was supposed to arrive.
- Describe the delay and the retailer's communication.
- Explain how the delay impacted you.
- Request a resolution (e.g., refund or discount).

Write about 150-200 words.

Your answer: _____ words

Task 2: Responding to Survey Questions

Time: 26 minutes · Length: 150–200 words

The Future of Agriculture in Cities

Urban agriculture is gaining attention as cities look for sustainable food sources and greener communities. Deciding how to support agriculture within city limits can shape future food systems.

How should your city promote urban agriculture? What's your opinion?

- Option A: Allocate rooftop and community garden spaces for local food production.
- Option B: Offer free online workshops and mentoring for aspiring urban farmers.

Please choose one option and explain your preference.

Write about 150-200 words.

Your answer: _____ words

Task 1: Complaint About Late Delivery

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

Dear Customer Service Team,

I am compelled to address a concerning issue with an order placed on May 15, 2025, for a necklace intended as a birthday gift, promised for delivery by May 25. Regrettably, it arrived on May 30 without any prior notification of the delay. This oversight prevented me from presenting the gift at a significant celebration, resulting in considerable disappointment and embarrassment. I urge you to issue a full refund or offer a meaningful discount on a future order to rectify this matter. Please advise on your course of action promptly.

Best regards,

Task 2: The Future of Agriculture in Cities

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

I strongly support the allocation of rooftop and community garden spaces as the most impactful way to promote urban agriculture. These spaces offer hands-on opportunities for residents to engage with food production, regardless of their living situation. While educational workshops are valuable, practical access to gardening areas removes a key barrier to participation. Additionally, community gardens foster social interaction and environmental awareness, making cities more sustainable and resilient in the long run.
