Task 1: Writing an Email

Time: 27 minutes · Length: 150–200 words

DIY Home Fix Advice

You're writing to friend and DIY enthusiast, Priya, asking for tips to fix a leaky kitchen faucet.

Required Points:

- Describe the problem clearly
- Share what you've already tried
- Ask for step-by-step advice or resources
- Thank them in advance

Your answer: _____ words

Task 2: Responding to Survey Questions

Time: 26 minutes · Length: 150–200 words

Green Public Transportation Infrastructure Survey

You often use public transit to commute across the city and have become more aware of the pollution caused by older buses. Now, the city is asking frequent riders like you for feedback on the best ways to make the transit system cleaner and more sustainable for the future.

How should your city invest in green transit? What do you think?

- Option A: Replace old buses with electric or hybrid vehicles.
- Option B: Build more protected bike lanes connecting to public transport stations.

Please choose one option and explain your preference.

Write about 150-200 words.

Your answer: _____ words

Task 1: DIY Home Fix Advice

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

Dear Priya,

I hope you're doing great. I'm facing a persistent drip at the base of my kitchen faucet even after cleaning the aerator and tightening the packing nut. The leak worsens when I shut the tap fully off. I suspect a worn O-ring or cartridge issue but haven't attempted a replacement yet. Could you provide a step-by-step procedure for diagnosing and replacing the faulty part? Any advice on sourcing quality replacement kits or helpful video tutorials would be much appreciated.

Thank you so much for your expertise—I'd love to repay the favor soon!

Warm regards,

Task 2: Green Public Transportation Infrastructure Survey

Excellent sample answer (written at around CLB 11–12, an estimate, not an official score)

As someone who regularly relies on public transit, I strongly support replacing old buses with electric or hybrid vehicles (Option A). Cleaner buses would not only reduce urban emissions but also improve the daily commuting experience for riders like myself. While expanding bike lanes supports sustainable travel, modernizing the bus fleet delivers broader and more immediate environmental benefits to the entire city.
